**Subject:** Notes from the 3pm call today

Harry, I must report I held a top-notch meeting in your absence.

PRESENT:

- EPA: Farmington (Moxley); Window Rock (Ebbert); San Francisco (Montgomery).
- IHS: Charles Woodley
- UNM: Johnnie

UPDATES:

- Farmington Update: Farmington thanked Window Rock Command for setting up the Shiprock Meeting. They continue to locate tanks at Chapters and facilities. There are two more shipments of feed coming and are interested in putting the Tribe in charge of identifying where those resources are deployed.
- Window Rock: Also looking forward to that meeting tomorrow, to clearly identify roles and responsibilities.
- IHS: no updates
- UNM: Data should be coming out tonight, looking forward to examining that data. Will be starting to gather sediment and microbio data next week.

PRIORITIES:

- Farmington: Looking forward to a successful meeting tomorrow with the Tribe and other partners.
- Window Rock: See Farmington's priority.
- IHS: Maintain situational awareness.
- UMN: Identify gaps they can fill.

Cheers,

LE

Laura Ebbert

Big news should be the forthcoming press release and data release from Aug 7, 8 and 9 to the [EPA.gov](http://EPA.gov) Gold King website.

Please confirm that this is live and perhaps include in the Navajo and Regional update.

I'm sure you are on the call right now, ask whether the PR below will allow us to release sampling data to Austin/Dr. Benn. I trust you can get this data to them once the green light is given, as I have no access to the data.
